

Name _____

SENSATION AND PERCEPTION
Chapter 4 Vocabulary

absolute threshold	
afterimage	
auditory nerve	
binocular cue	
blind spot	
closure	
cochlea	
common fate	
complementary	

conductive deafness	
continuity	
difference threshold	
gate theory	
kinesthesia	
lens	
monocular cue	
olfactory nerve	
perception	
photoreceptor	
proximity	

pupil	
retina	
retinal disparity	
sensation	
sensorineural deafness	
sensory adaptation	
signal-detection theory	
similarity	
stroboscopic motion	
vestibular sense	
visual acuity
